PRODUCT BROCHURE · 2026

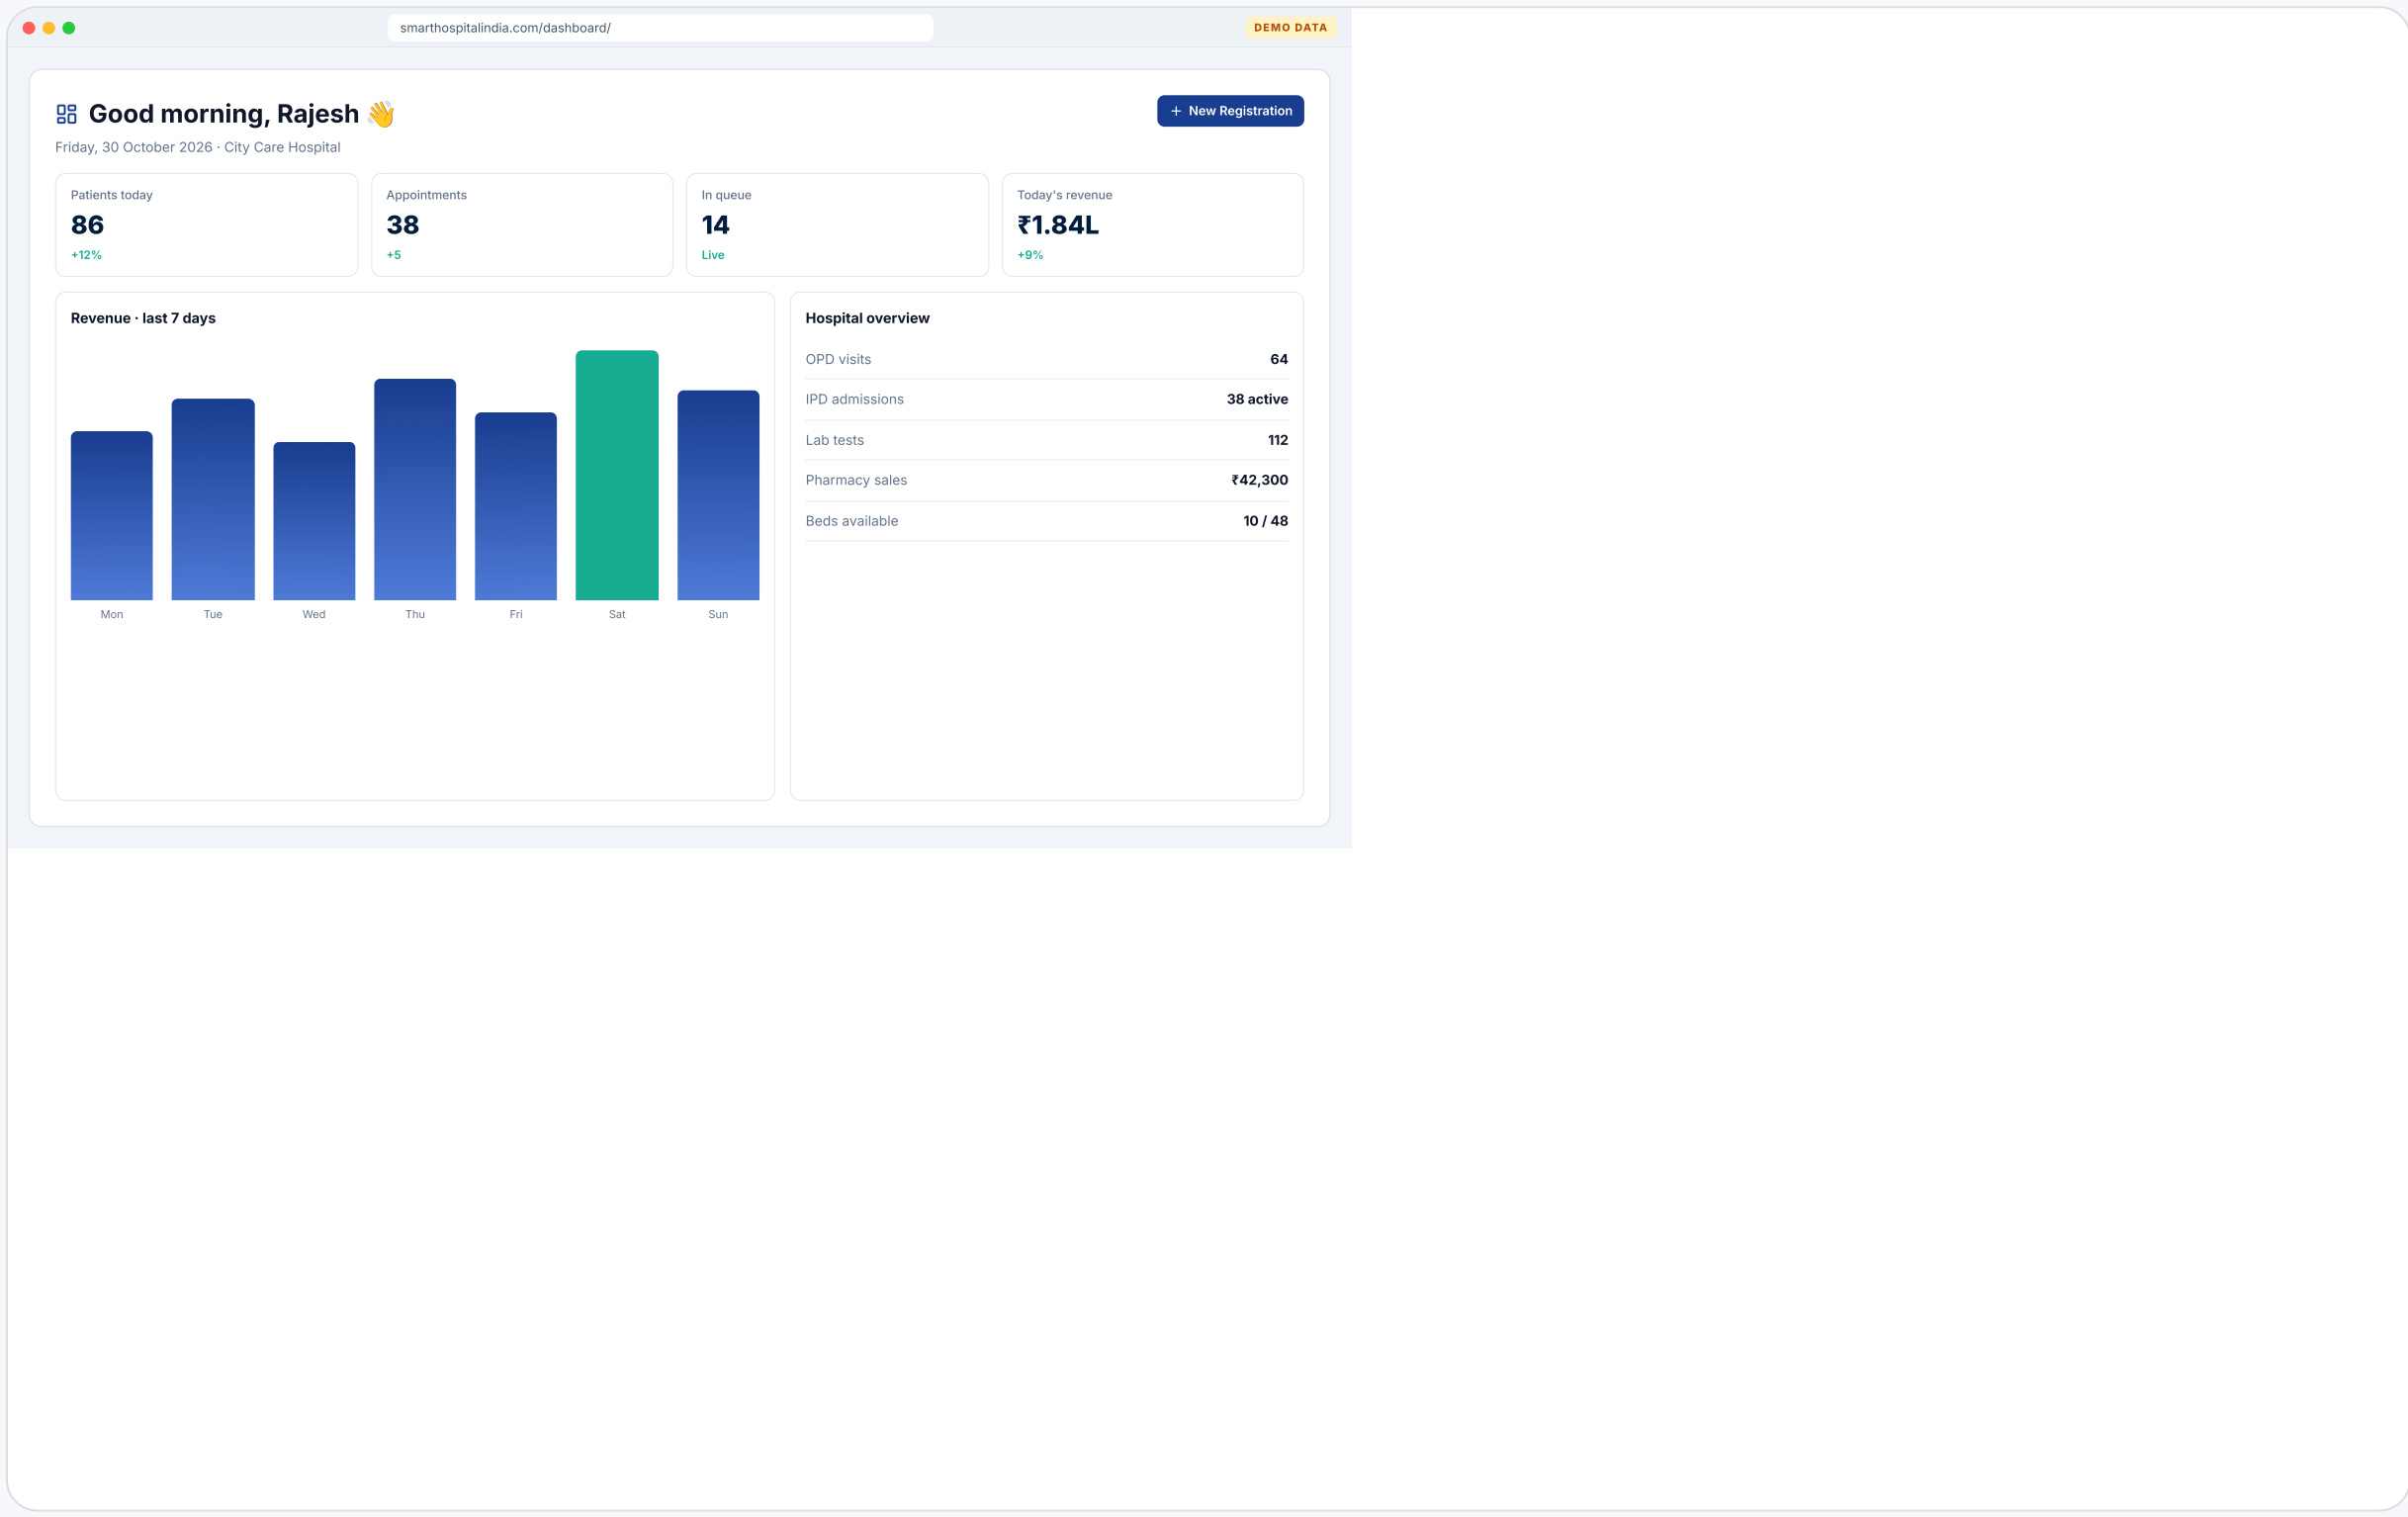

Everything your hospital runs on — in one app

A guided tour of SmartHospital India: 9 departments, 36 modules and ABDM M1–M3, shown with real screens from the app.

36
modules

9
departments

7-day
free trial

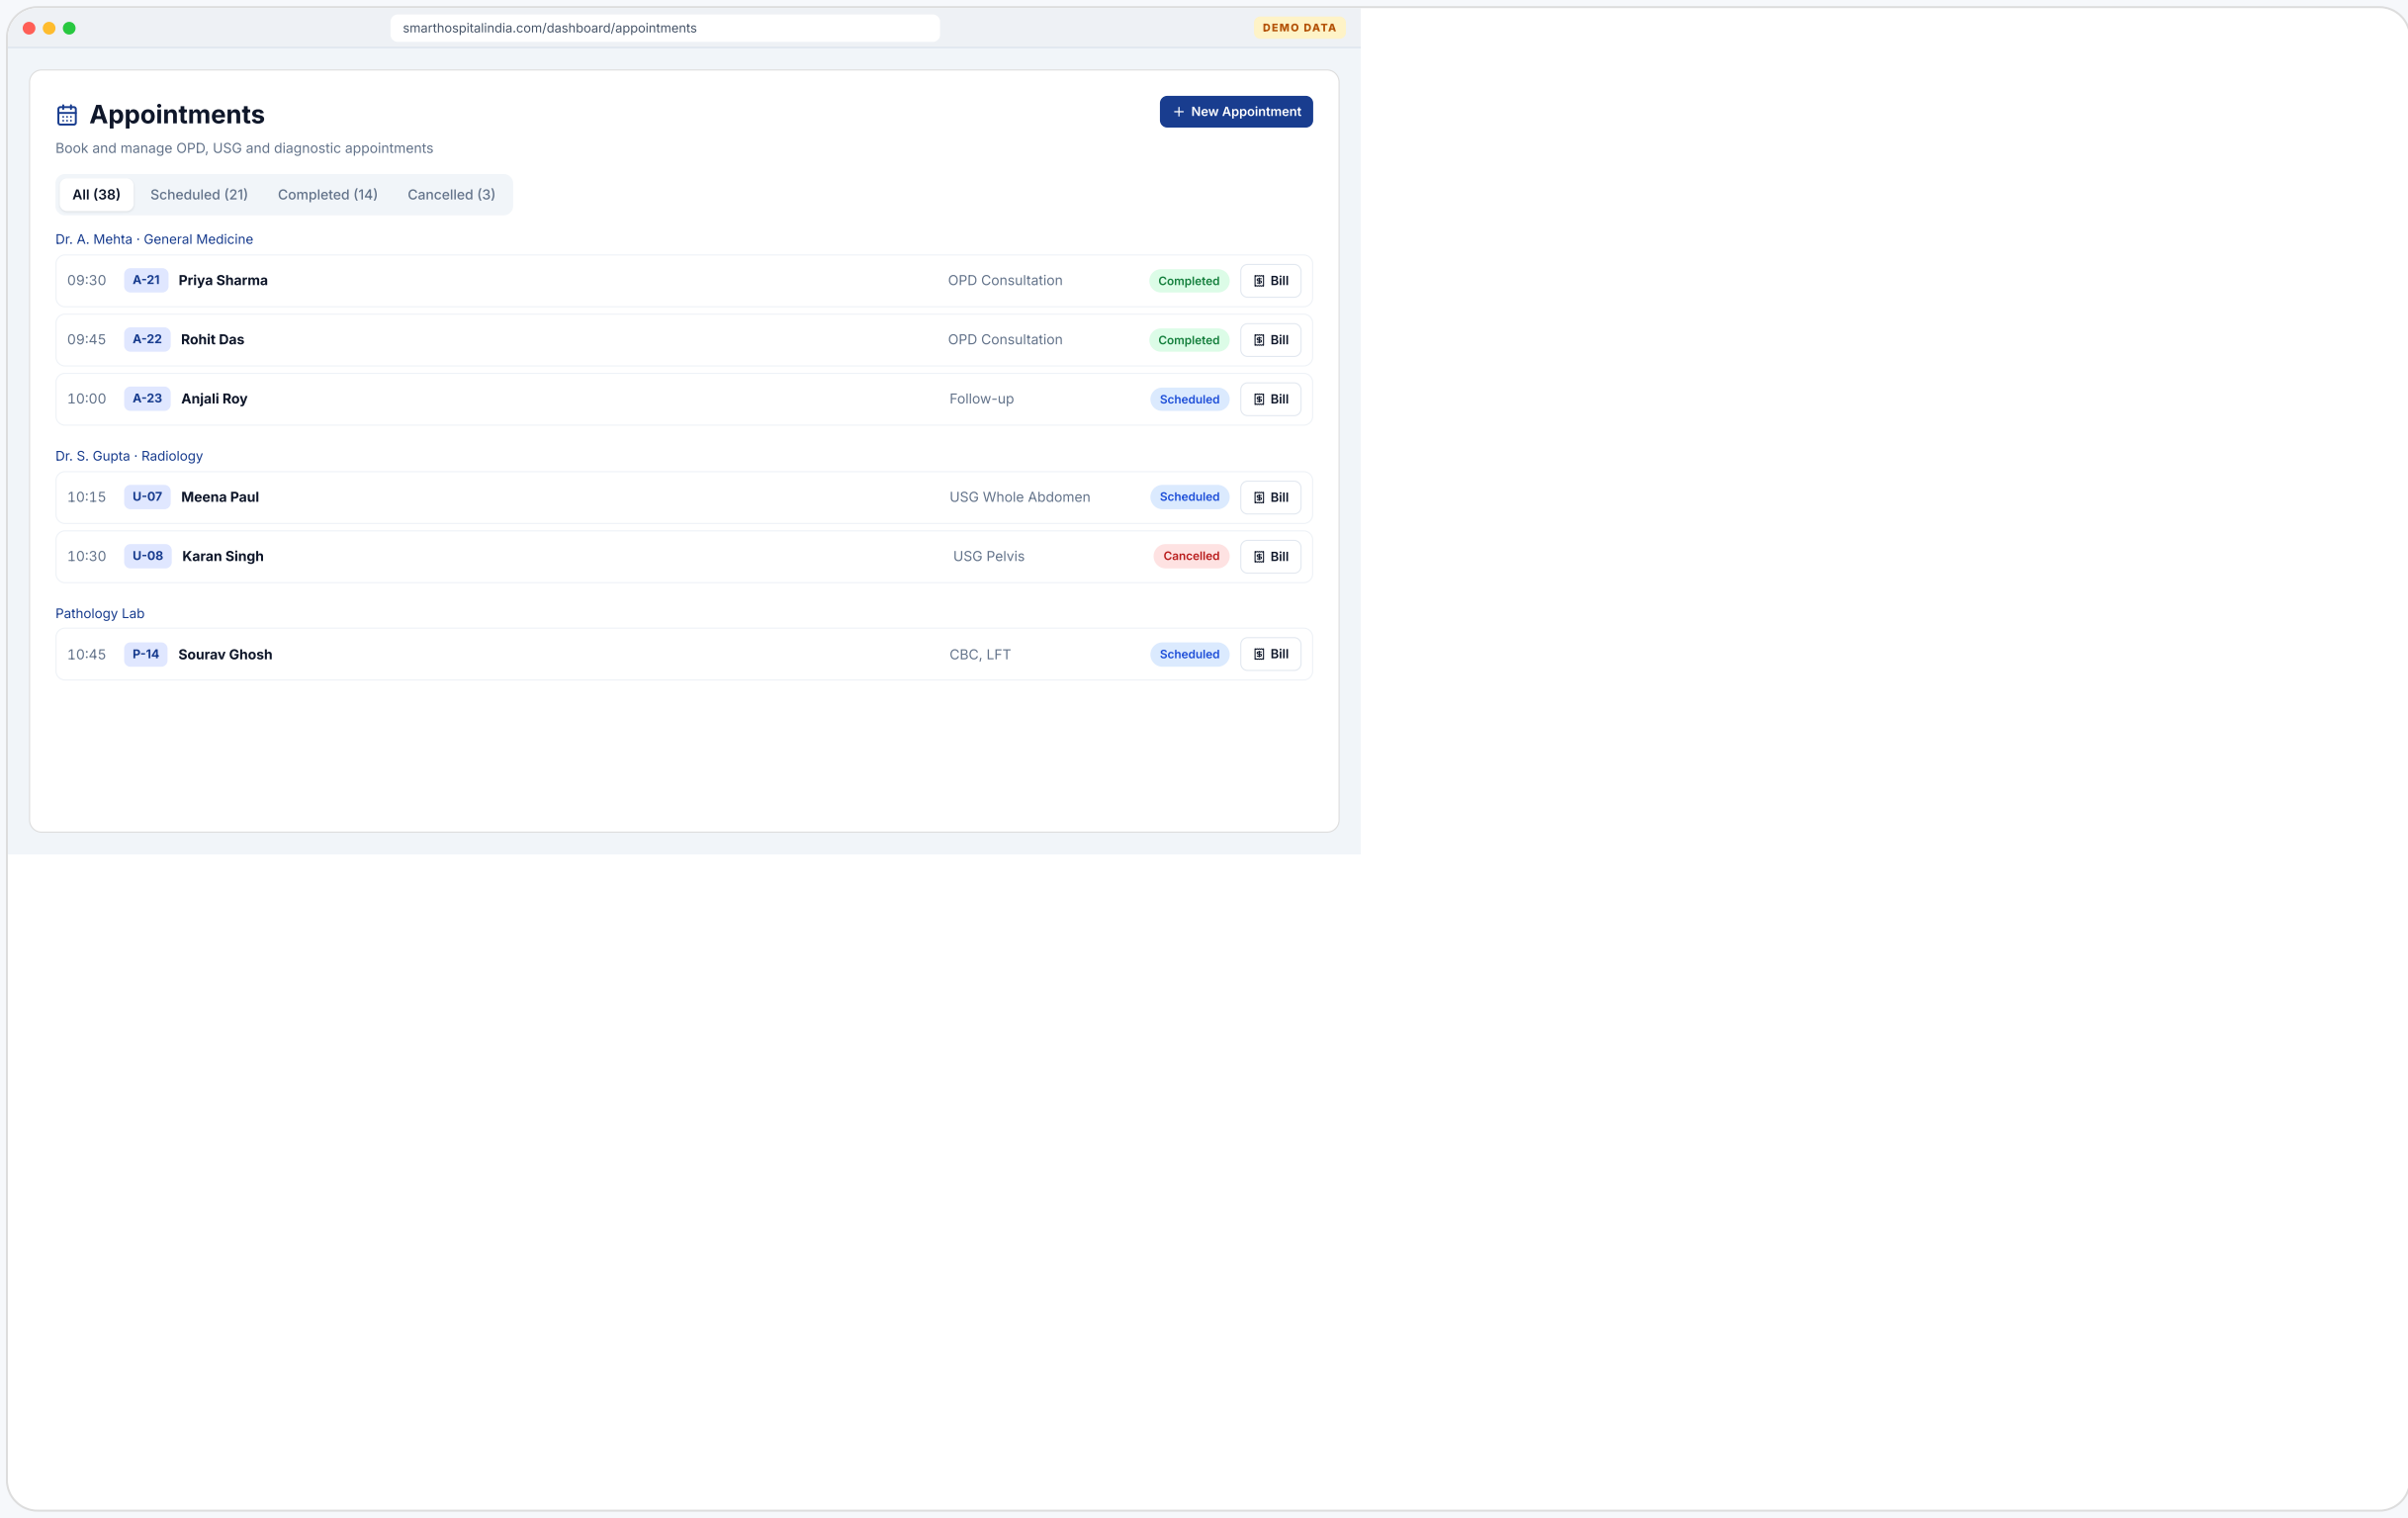

01 FRONT OFFICE

Short queues, happy patients

Reception books OPD, USG and lab visits in seconds, hands out tokens and bills at the desk — all on one screen.

- ✓ Token-based booking for OPD, USG and diagnostics
- ✓ Appointments grouped by doctor with live status
- ✓ One-click billing straight from the appointment
- ✓ Walk-ins and follow-ups in the same list

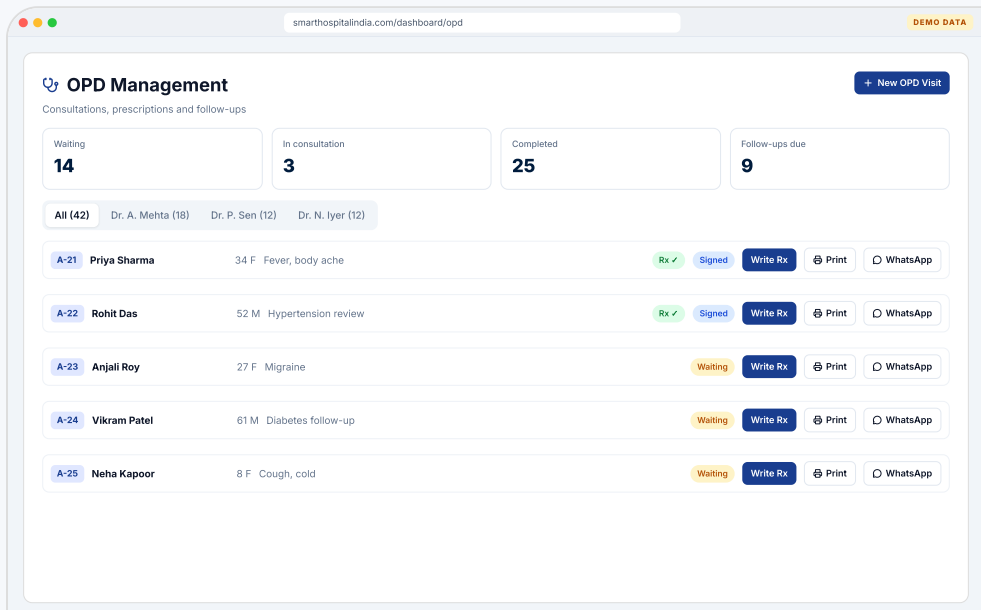

02 CLINICAL

Prescriptions in under a minute

Doctors see their queue, write structured prescriptions from a 500+ drug list and send them on WhatsApp.

- ✓ Doctor-wise token queue with waiting count
- ✓ Structured medicines: type, dose and days
- ✓ Signed prescriptions, print or WhatsApp
- ✓ Follow-up reminders that patients actually get

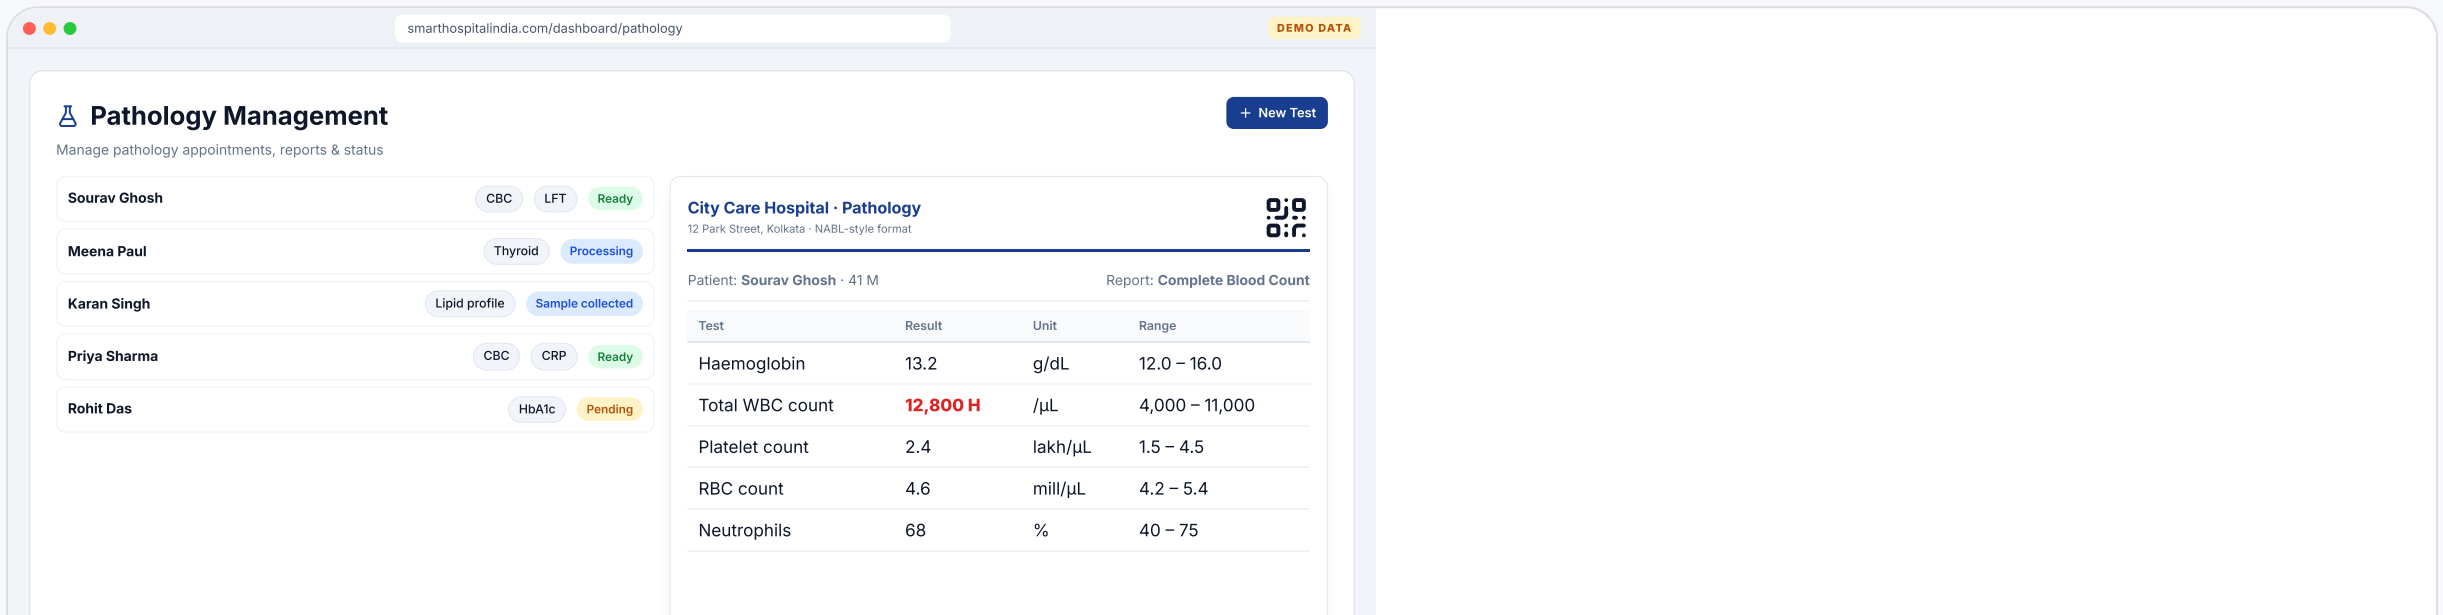

03 DIAGNOSTICS

Lab and imaging reports, done right

Pathology, USG, ECG and X-Ray each get their own queue and branded reports, with abnormal values flagged automatically.

- ✓ 50+ ready report panels with reference ranges
- ✓ High and low values flagged in red
- ✓ Letterhead, QR verification and doctor signature
- ✓ Reports delivered on WhatsApp the moment they're ready

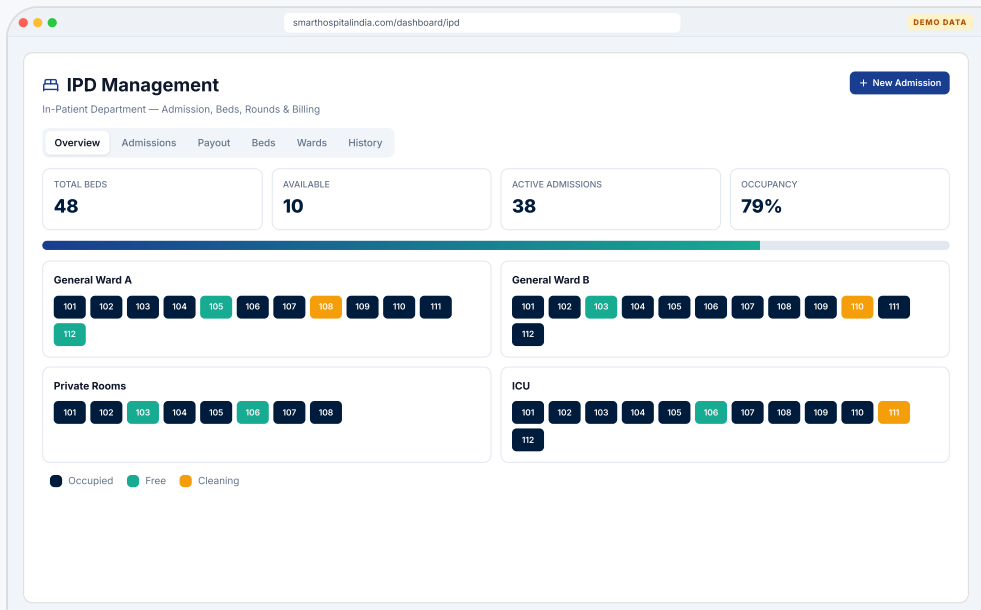

04 INPATIENT CARE

Every bed, every charge, live

See every ward at a glance, admit in a few clicks and let bed, room and package charges add up on their own.

- ✓ Visual bed map: occupied, free and cleaning
- ✓ Live occupancy across wards and ICU
- ✓ Automatic bed charges, packages and payouts
- ✓ Nursing charts, rounds and discharge summary

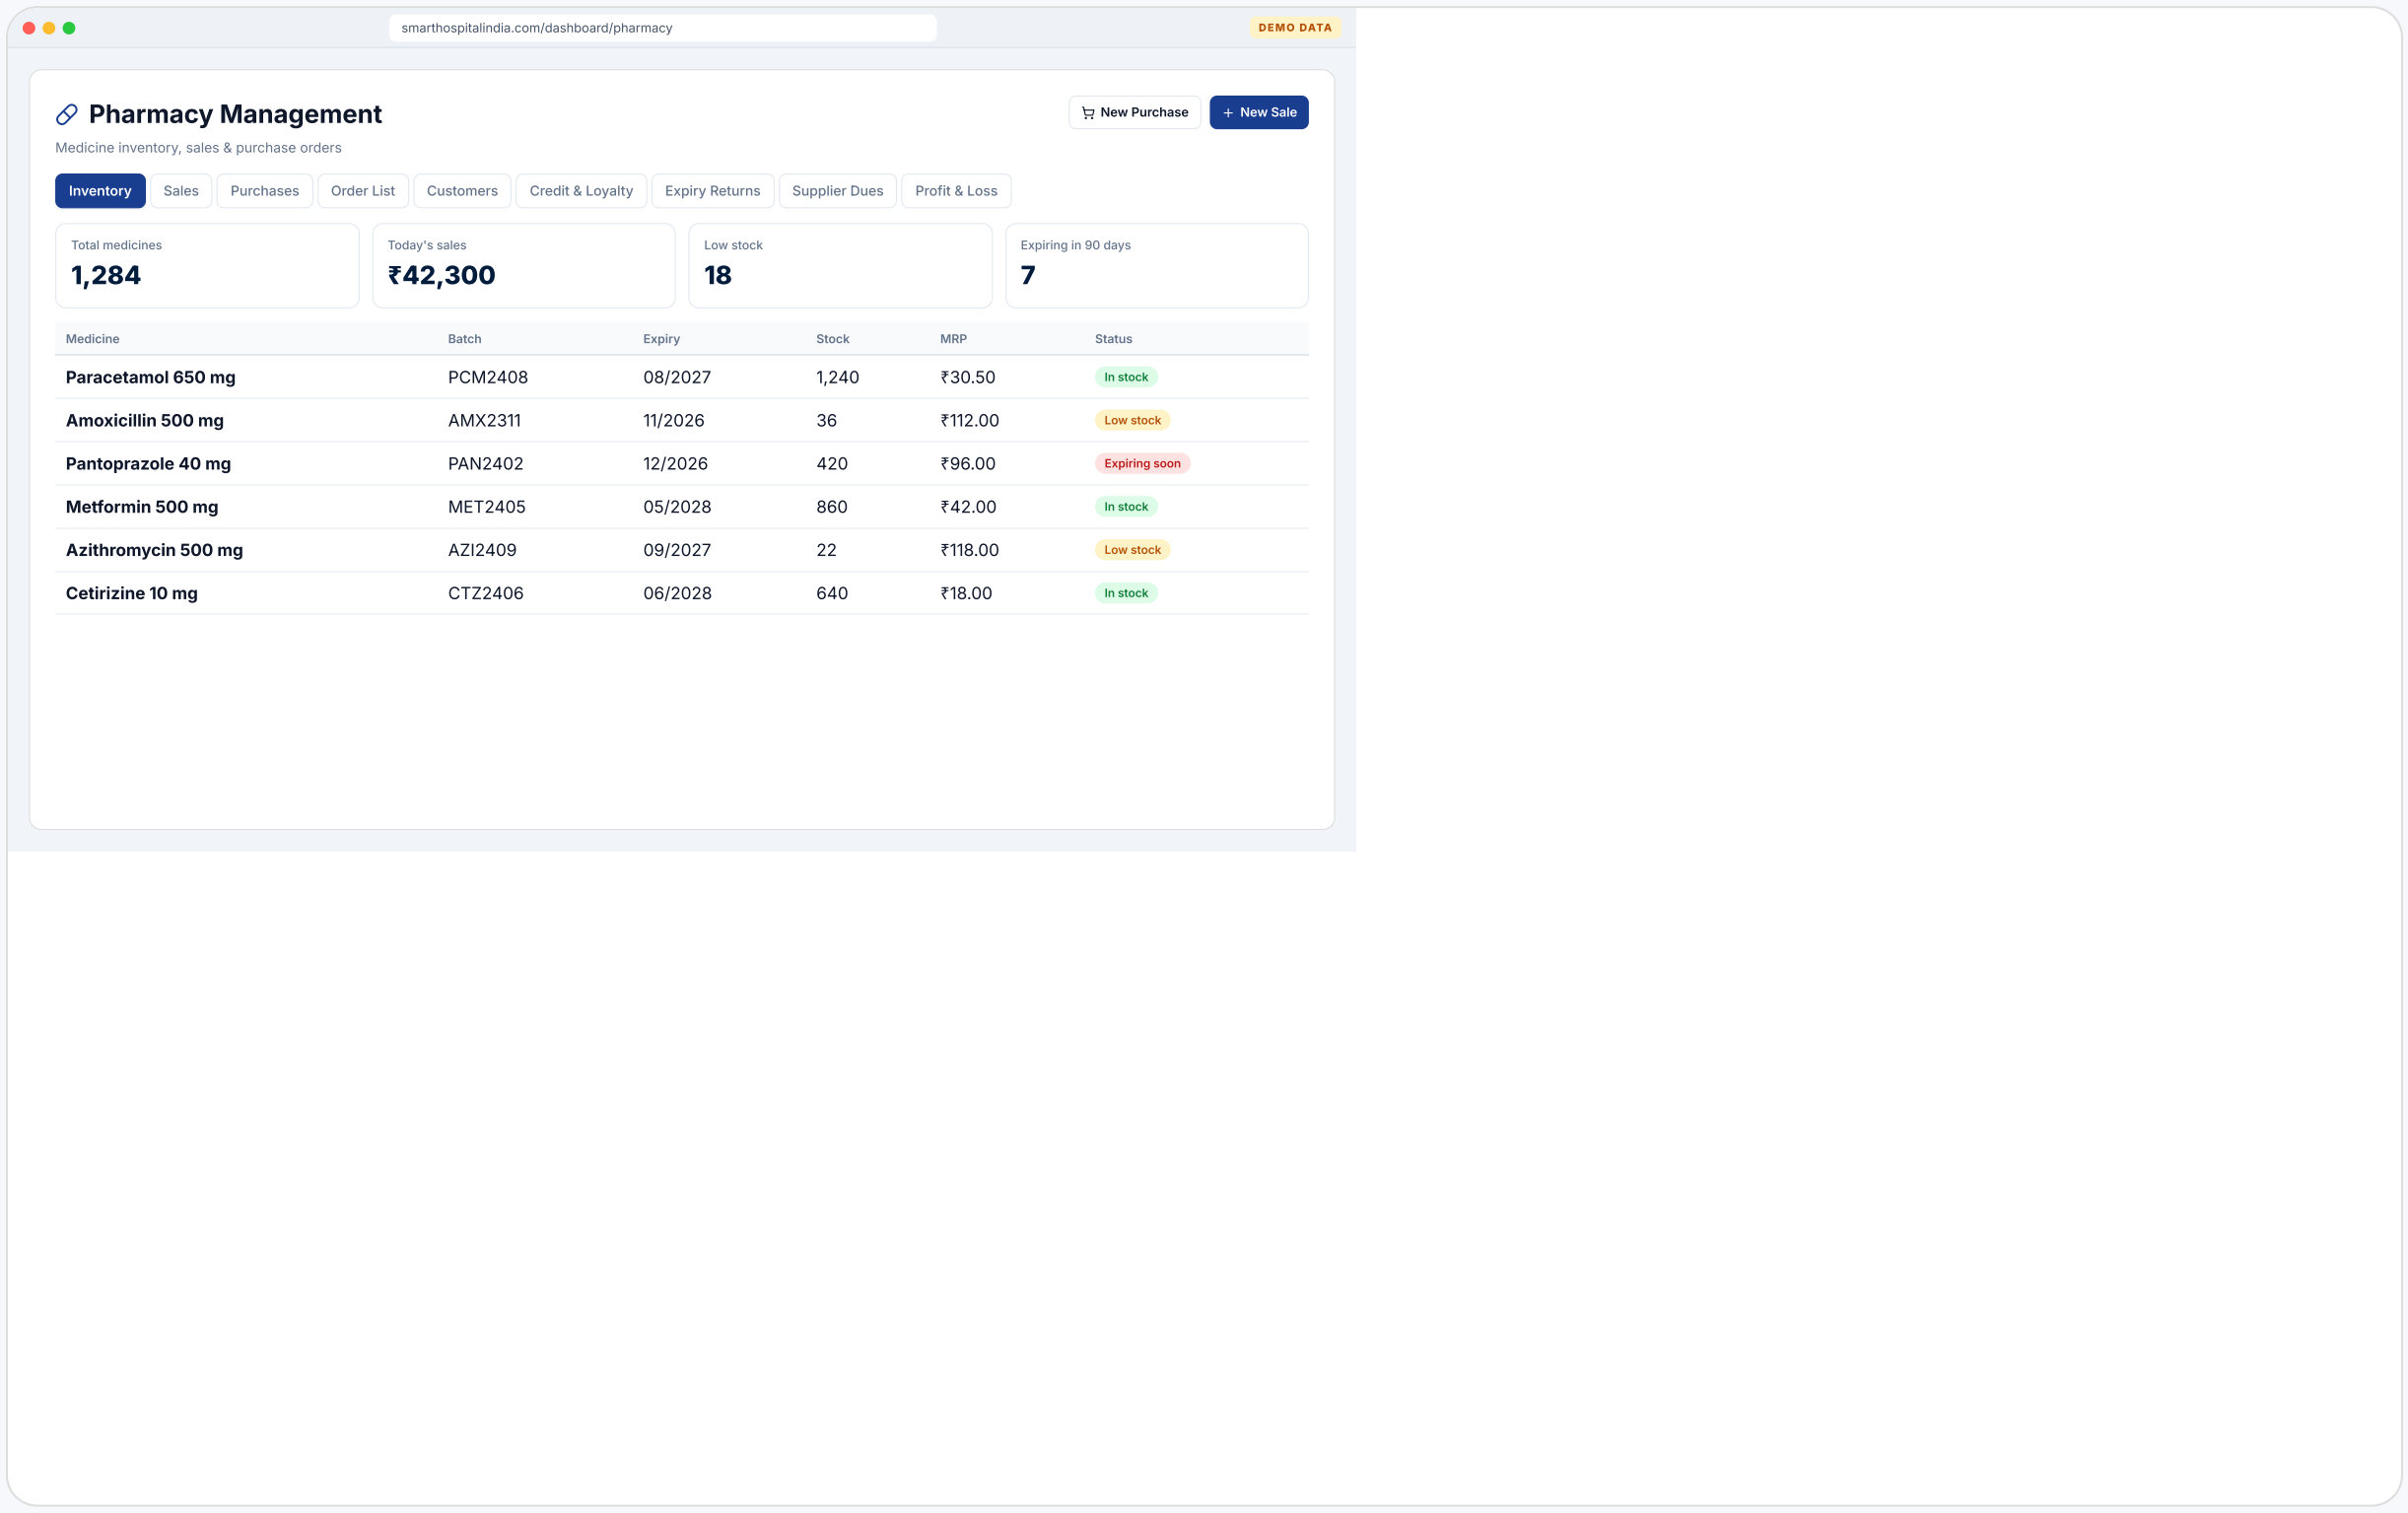

05 PHARMACY & STORES

No expired stock, no missing medicines

Batch-wise stock with expiry alerts, purchases, sales, supplier dues and profit — in the same app as your OPD.

- ✓ Batch, expiry and MRP on every item
- ✓ Low-stock and expiring-soon alerts
- ✓ GST purchase and sale bills
- ✓ Supplier dues, returns and profit & loss

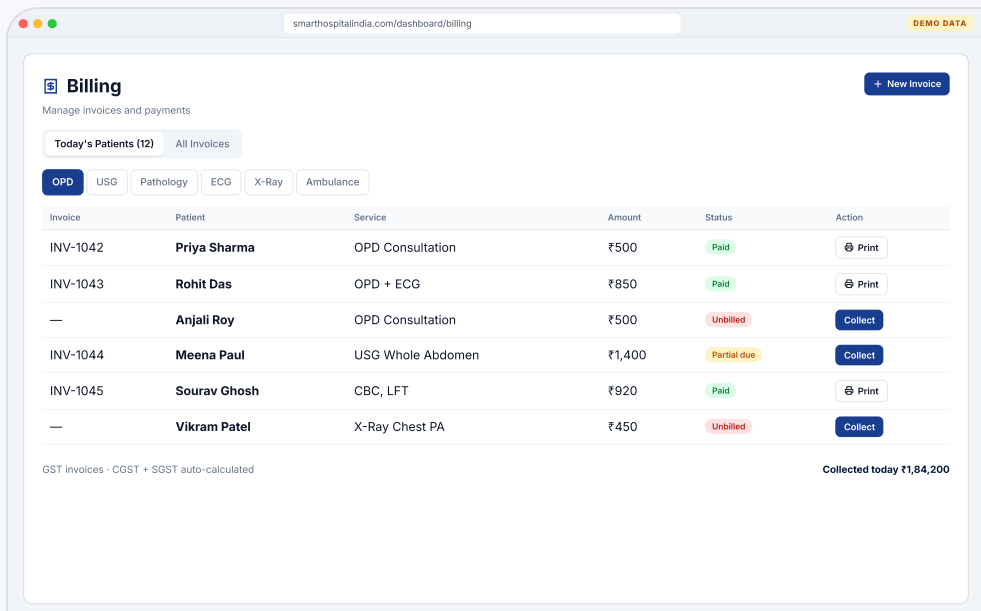

06 BILLING & FINANCE

Correct GST bills, every time

Every service rate is set once, so bills come out right. Unbilled patients and partial dues are never missed.

- ✓ Today's patients with unbilled alerts
- ✓ Department-wise tabs: OPD, USG, lab, ECG, X-Ray
- ✓ Partial payments and due collection
- ✓ GST-ready invoices, printed or on WhatsApp

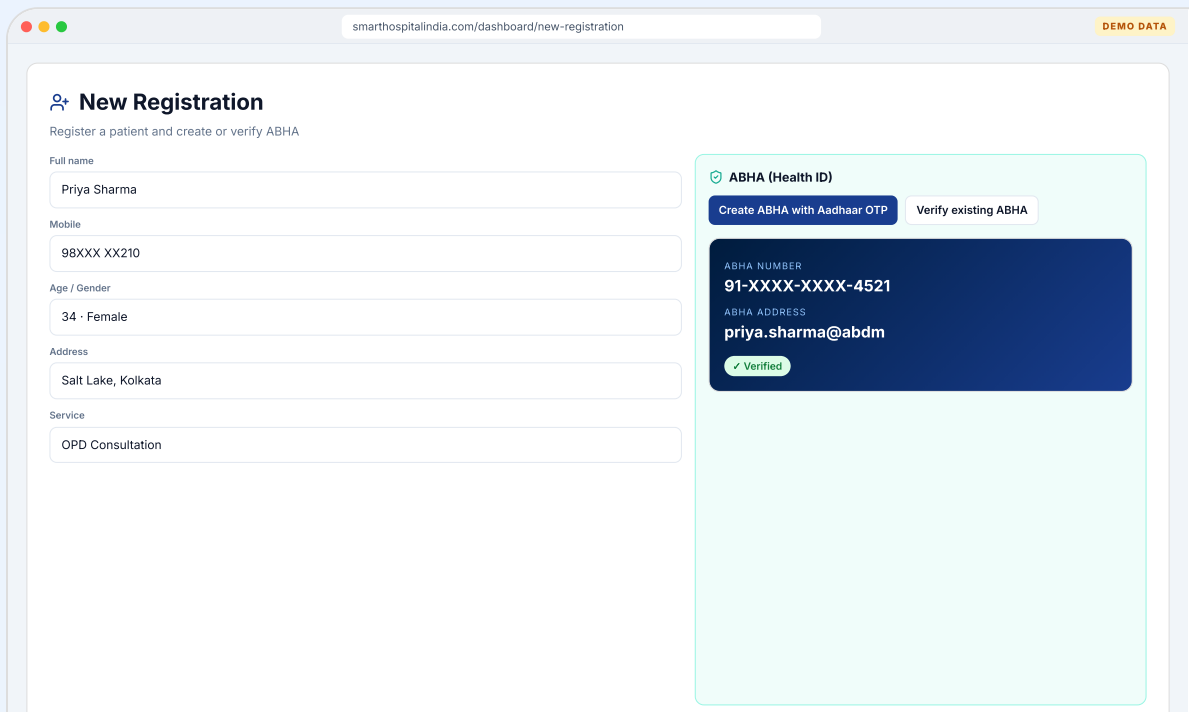

07 ABDM (HEALTH ID)

ABDM M1, M2 and M3 — built in

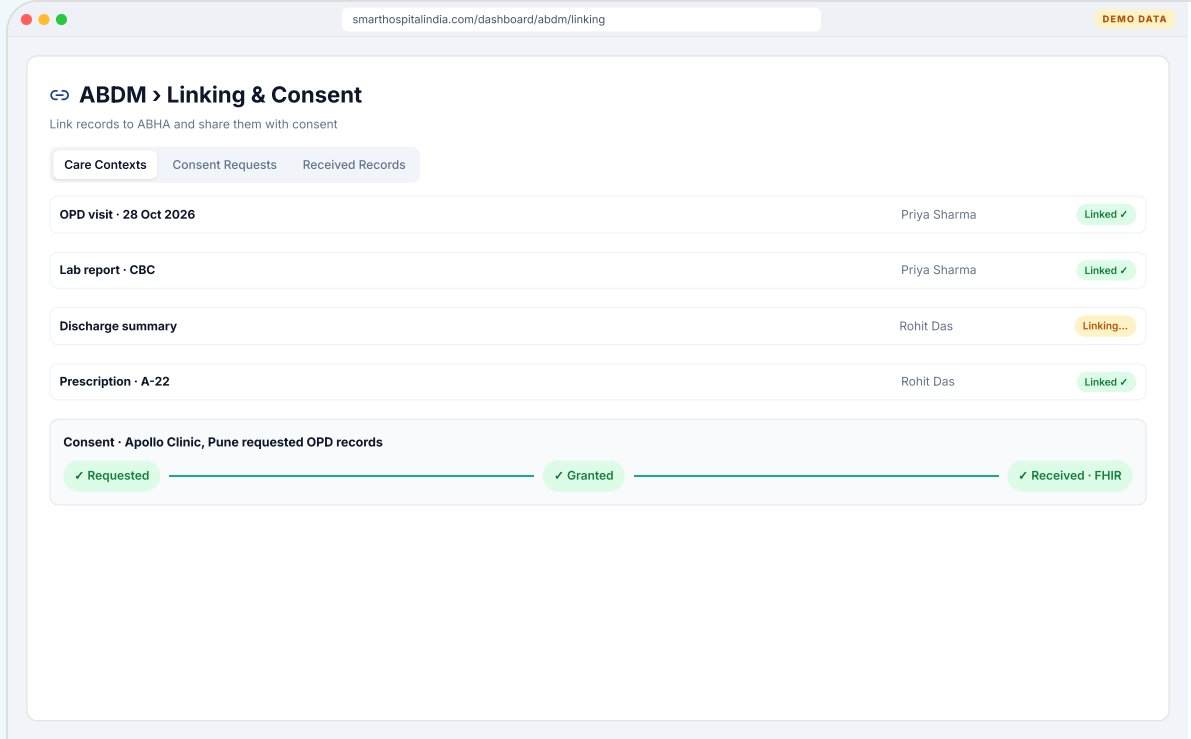

Create and verify ABHA at registration, link every visit to the patient's ABHA and share records with consent — no separate software needed.

- ✓ ABHA creation with Aadhaar OTP
- ✓ Verify an existing ABHA in seconds
- ✓ Visits and reports linked as care contexts
- ✓ Consent-based sharing in FHIR format

M1 · ABHA creation & verification at registration

M2 + M3 · Records linked to ABHA · consent-based sharing

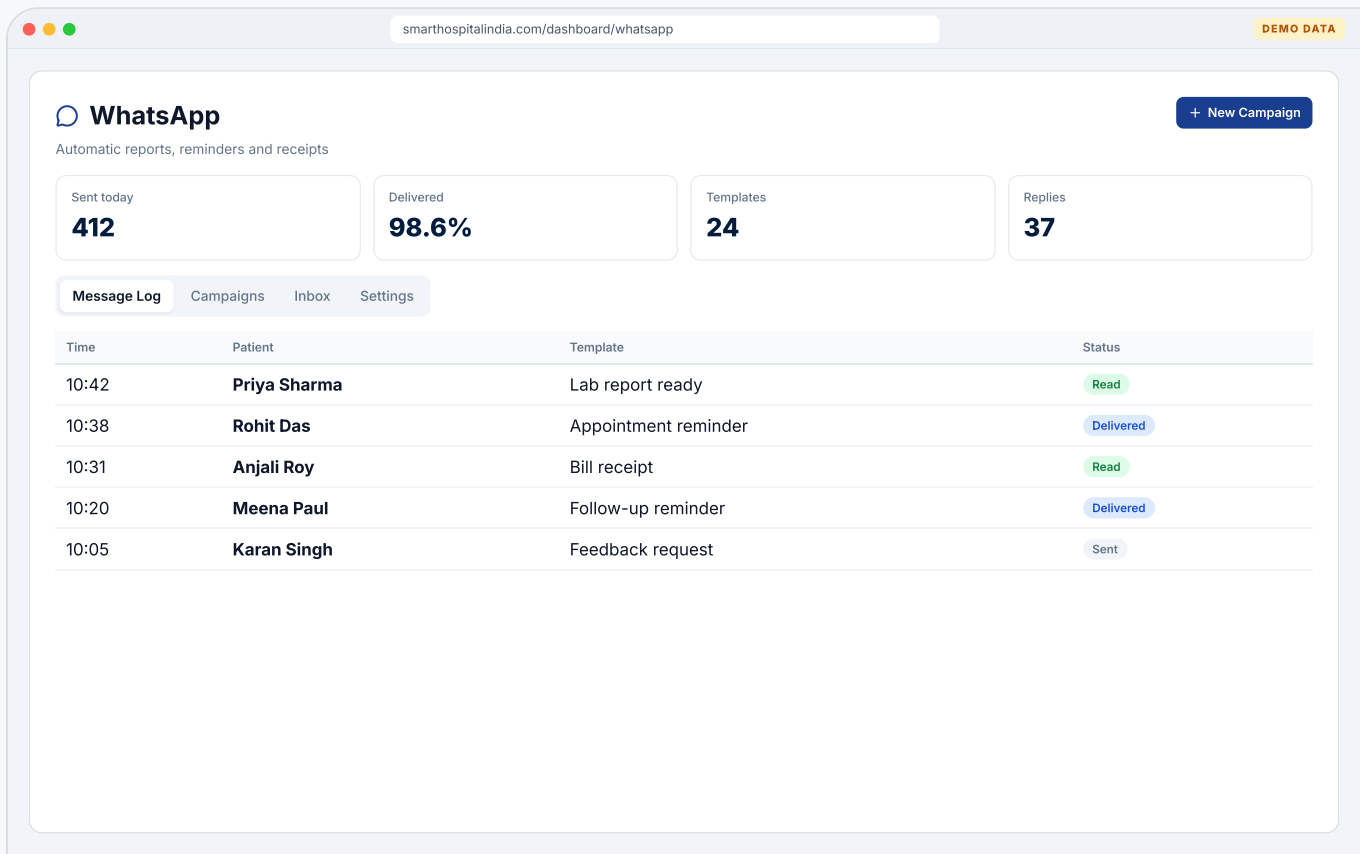

✓ Facility (HFR) linked ✓ Doctors (HPR) linked ✓ Scan & Share OPD QR ✓ Health Info Exchange (FHIR)

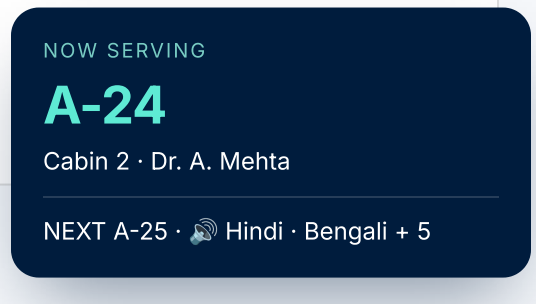

08 PATIENT ENGAGEMENT

Patients stay informed, automatically

Reports, bills and reminders go out on WhatsApp by themselves, and the waiting-room TV calls tokens out loud.

- ✓ Automatic WhatsApp for reports, bills and reminders
- ✓ Campaigns and a shared WhatsApp inbox
- ✓ TV queue display with voice announcements
- ✓ Feedback requests after every visit

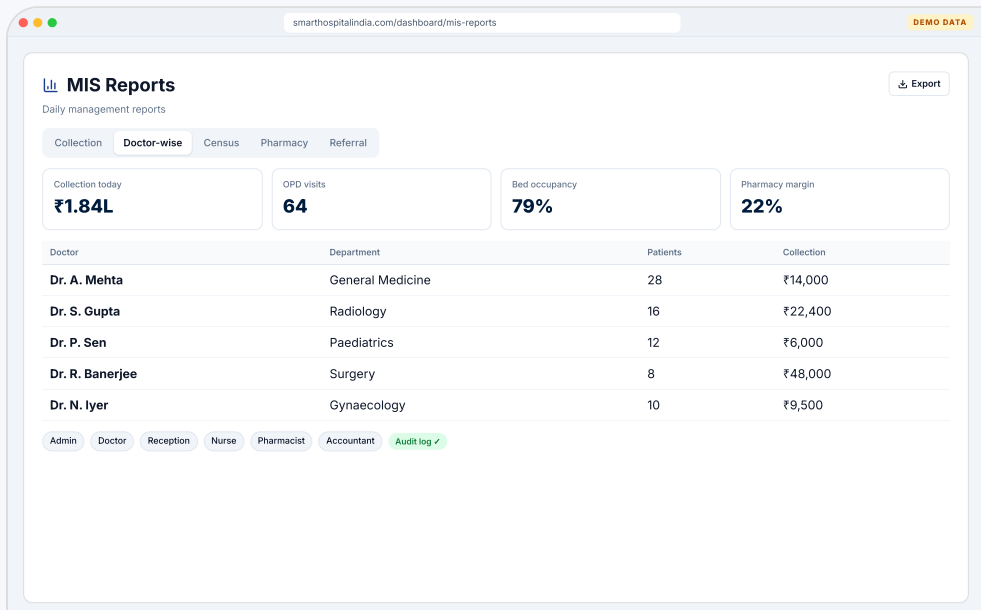

09 REPORTS & CONTROL

Know your hospital, every day

Daily collection, doctor-wise numbers, census and pharmacy reports — with role-based access and a full audit log.

- ✓ Collection, census and doctor-wise MIS
- ✓ Export any report to Excel or PDF
- ✓ Role-based access for every staff member
- ✓ Audit log of every important change

All 36 modules

Switch on only what your hospital needs. Add more any time.

Dashboard	Appointments	Patient Register
